

Pension plan members who will be retiring on or before May 1, 2033 (May 1, 2030 for C.U.P.E) have the right to exchange one week of vacation entitlement each year **to a maximum of three years** up to a declared retirement date, for a one-time 2% salary increase. Partial vacation years within the exchange period will be pro-rated and both the salary increase and the reduction in vacation entitlement will be ongoing until retirement.

The one-time salary increase will be calculated on the base salary in effect:

- *C.U.P.E. employees* – as of the effective date of the exchange;
- *Staff and Faculty employees* – immediately prior to the start of the salary year in which the effective date of the exchange occurs.

You **must** retire from the University on your declared retirement date. You can retire earlier but you cannot work beyond this date. Retirement dates are the first of the month. The declared retirement date cannot extend more than 3 years beyond the effective date of the exchange and cannot be later than:

- *C.U.P.E. and Staff employees* - the first of the month coincident with or following the month you turn 71 (66 for C.U.P.E);
- *Faculty employees* - the first of the month following the end of the academic term in which you turn 71.

In the event that the provisions of the pension plan are amended after the Effective Date of Exchange, this exchange will remain in place and the new plan provisions will apply to the calculation of your pension upon retirement.
